### Client Outcomes

- **Self Care Index**: Measures the Self-Care Index (SCI) which reflects a patient's risk of not having a balance between self-care and care from others. Higher scores indicate better self-care. Data is reported annually.
- **Overall Orange Care Needs**: Indicates the proportion of clients who are at risk for self-care deficits, with higher scores denoting more needs for self-care. Data is reported quarterly.

### Clinical Quality

- **Lost Time Injury Index (LTI)**: Reflects the frequency of Lost Time Injuries, with lower scores indicating safer working conditions. Data is reported quarterly.

### Safety

- **Admission to a seclusion room**: Measures the number of times patients have been admitted to a seclusion room. Data is reported quarterly.

### Quality Indicators

- **Rash Resolution Rate**: Indicates the rate of skin rash resolution, with higher scores indicating better care. Data is reported quarterly.
- **Mental Health Hospitals**: Reflects the percentage of patients who have been discharged, with higher scores indicating better patient outcomes. Data is reported annually.

### Administration

- **Budgetary Data**: Includes core data such as client outcomes, financial performance, and quality indicators. Data is reported annually.

### Reporting Periods

- **Q3 (October 1, 2020 - December 31, 2020)**: Reports data for the third quarter of the year.
- **Q4 (January 1, 2021 - March 31, 2021)**: Reports data for the fourth quarter of the year.
